I am currently preparing to build my career as a Business Intelligence (BI) Analyst by applying my academic background in quantitative economics, combined with my experience as a two-time cofounder and my recent internship at Betopia Group. I am passionate about identifying anomalies in data and using data-driven insights to solve problems. My goal is to streamline collaboration between marketing and operations, reduce friction in processes, and prevent businesses from losing valuable leads.

WORK EXPERIENCE

i2i Digital Marketing Training & Internship

Dec, 2025 - Present

Betopia Group

Dhaka, Bangladesh

Achievements

- Gained hands-on understanding of brand positioning, target audience identification, and marketing budget planning.
- Applied the AIDA model to analyze customer journey stages and improve campaign structuring.
- Calculated and interpreted key marketing metrics including Customer Acquisition Cost (CAC) and Customer Lifetime Value (LTV) to support data-driven budget allocation.
- Conducted brand positioning and competitor analysis for Shondhibazar, identifying target segments.

Responsibilities

- Audited and analyzed Betopia Group's social media accounts, identifying optimization gaps in page setup, content positioning, and audience targeting.
- Provided strategic recommendations to improve brand visibility, engagement, and digital presence.
- Assisted a client in selecting optimal domain names aligned with brand positioning for both sweets and home healthcare service businesses.

Co-Founder | Lead, Business Intelligence & Supply Chain

Nov, 2024 - Jan, 2026

ZARIWALI

Dhaka, Bangladesh

Achievements

- Secured a physical retail footprint at Prelegant Mall in Chattogram by negotiating a strategic partnership model.
- Defined a unique value proposition in a saturated market through comprehensive gap analysis and customer persona mapping.
- Protected profit margins and ensured high quality output by applying lean principles to vendor management.

Responsibilities

- Oversee the full production lifecycle including raw material sourcing, fabric quality control and vendor relations.

- Led the strategic growth and operational planning to drive business scalability and market relevance.
- Directed product photography and social media publishing to ensure consistent brand voice across all platforms.

Former Technical Co-founder and Data Analyst
THE RAGE HOUSE

Nov 2024- Aug, 2025
Dhaka, Bangladesh

Achievements

- Designed an end-to-end CRM dashboard system using Google Sheets to enable real-time reporting.
- Restructured pricing models by developing analytical frameworks based on demographic and psychographic data.
- Increased capacity utilization and improved service design by optimizing workforce deployment strategies.

Responsibilities

- Built and maintained core data infrastructure to support evidence-based decision making.
- Translated complex data into operational strategy to directly impact the bottom line.
- Collaborated cross-functionally to ensure strategic initiatives are backed by quantitative insights.
